INDEPENDENT AUDITOR'S REPORT

To the Board of Education of
Vinton-Shellsburg Community School District:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Vinton-Shellsburg Community School District, Iowa, as of and for the year ended June 30, 2007, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Vinton-Shellsburg Community School District at June 30, 2007, and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated September 19, 2007 on our consideration of Vinton-Shellsburg Community School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis and budgetary comparison information on pages 7 through 15 and 52 through 53 are not required parts of the basic financial statements, but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Vinton-Shellsburg Community School District's basic financial statements. We previously audited, in accordance with the standards referred to in the second paragraph of this report, the financial statements for the three years ended June 30, 2006 (none of which are presented herein) and expressed unqualified opinions on those financial statements. Other supplementary information included in Schedules 1 through 5, including the Schedule of Expenditures of Federal Awards required by U.S. Office of Management and Budget (OMB) Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the Vinton-Shellsburg Community School District's annual financial report presents a discussion and analysis of the District's financial performance during the fiscal year ending on June 30, 2007. This analysis will focus on the District's financial performance as a whole for the fiscal year fiscal 2007.

Please read this analysis in conjunction with the District's financial statements, which immediately follow this section.

Financial Highlights

- ◆ General Fund revenue increased from \$14,043,236 in fiscal 2006 to \$14,499,287 in fiscal 2007 while General Fund expenditures increased from \$13,990,296 in fiscal 2006 to \$ 14,319,921 in fiscal 2007.
- ◆ The increase in General Fund revenues was attributable to an increase in property tax as well as federal sources and other revenue in fiscal 2007.

◆ Overview of Financial Statements

This report consists of three parts: management's discussion and analysis (this section), the basic financial statements and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- ◆ The first two statements are District-wide financial statements that provide both short-term and long-term information about the District's overall financial status.
- ◆ The remaining statements are fund financial statements that focus on individual parts of the District, reporting the District's operations in more detail than the District-wide statements.
- ◆ The statements for governmental funds explain how basic services such as regular and special education were financed in the short term as well as what remains for future spending.
- ◆ The statements for proprietary funds offer short-term and long-term financial information about the activities the District operates like businesses, such as food services.
- ◆ The statements for fiduciary funds provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others.

District Wide Statements

The District-wide statements report information about the District as a whole using accounting methods similar to those used by private sector companies. The statement of net assets includes all of the District's assets and liabilities. All of the current year's revenues and expenditures are accounted for in the statement of activities regardless of when cash is received or paid.

The two District-wide statements report the District's net assets and how they have changed. Net assets, the difference between the District's assets and liabilities, are one way to measure the District's financial health or position.

- ◆ Over time, increases or decreases in the District's net assets are an indicator of whether the District's financial position is improving or deteriorating, respectively.
- ◆ To assess the District's overall health, you need to consider additional non-financial factors such as changes in the District's property tax base, the condition of school buildings and facilities and student enrollment trends.

In the District-wide financial statements, the District's activities are divided into two categories:

- ◆ **Governmental Activities:** Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finances most of these activities.
- ◆ **Business-type Activities:** The District charges fees to help cover the cost of certain services it provides. The District school nutrition program would be included here.

Fund Financial Statements

The fund financial statements, included with this report, provide more detailed information about the District's funds, focusing on its most significant or major funds. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs. Funds do not focus on the District as a whole.

- ◆ Some funds are required by state law and by bond covenants.
- ◆ The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds or to show that it is properly using certain revenues such as federal grants.

Vinton-Shellsburg Community School District has three types of funds:

- ◆ **Governmental funds:** Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the District-wide statements, additional information at the bottom of the governmental fund statements explains the relationship or differences between the two statements.
 - ◆ The District's governmental funds include the General Fund, Special Revenue Funds, Debt Service Fund and the Capital Projects Fund.
- ◆ **Proprietary funds:** Services for which the District charges a fee are generally reported in the proprietary funds. Proprietary funds are reported in the same way as the District-wide statements.
 - ◆ The District's enterprise fund, one type of proprietary fund, is the same as its business-type activities but provide more detail and additional information, such as cash flow. The District currently has two enterprise funds, the school nutrition program and the child care program.
- ◆ **Fiduciary funds:** The District is trustee, or fiduciary, for assets that belong to others. These funds include Private -purpose Trust and Agency funds.
 - ◆ **Private-Purpose Trust Fund:** The District accounts for outside donations for specific purposes in this fund.

The District is responsible for ensuring that the assets reported in the fiduciary funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from District-wide financial statements because it cannot use these assets to finance its operations.

Financial Analysis of the District as a Whole

Net assets: Figure A-1 provides a summary of the District's net assets for the year ended June 30, 2007. The districts combined net assets were higher on June 30, 2007 than they were the year before, increasing to \$10,116,373. (figure A1)

Property tax and unrestricted state grants account for 76% of the District's total revenue. The District's expenses primarily relate to instruction and support services, which account for 87% of the total expenses.

Governmental Activities

Revenues for governmental activities were \$ 18,217,161 and expenses were \$ 15,956,559. In a very difficult budget year, the District did a remarkable job of controlling expenditures to provide additional funds for upcoming years.

The following table presents the total and net cost of the District's major governmental activities; instruction, support services, and other expenses.

- ◆ The cost financed by users of District's programs was \$ 845,395.
- ◆ Federal and state government subsidized certain programs with grants and contributions totaling \$ 2,109,894.
- ◆ The net cost of governmental activities was financed with \$ 6,490,011 in property and other taxes, \$ 7,913,872 in state foundation aid and \$ 857,989 in other income.

Business -Type Activities

Revenues of the District's business-type activities were \$ 716,310 and expenses were \$ 670,713. The District's business-type activities include the School Nutrition Fund, and the Child Care Fund. Revenues of these activities were comprised of charges for services, federal and state reimbursements and investment income.

Financial Analysis of the District's Funds

As previously noted, the Vinton-Shellsburg Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds as well. As the District completed the year, its governmental funds reported combined fund balances of \$4,544,763 a decrease of \$ 8,004,465 from last year's ending fund balance of \$ 12,549,228. The primary reason for the decrease in combined fund balances in fiscal 2007 was due to spending down the bond proceeds from the prior year.

Governmental Fund Highlights

- ◆ The District's General Fund financial position is the product of many factors. The Instructional Support Levy, increased taxes and grants resulted in increased revenues. The increase in revenues was coupled with about the usual increase in General Fund expenditures.
- ◆ The General Fund balance decreased from a deficit of \$ 271,775 to a deficit of \$ 92,409, for the 2006-07 fiscal year. The District is working to improve the balance by increasing cash reserve levy and controlling expenditures.
- ◆ The Physical Plant and Equipment Levy (PPEL) Fund balance increased from \$ 662,932 to \$ 1,042,613 for the 2006-2007 fiscal year. The increase is due to controlling expenditures to provide additional funds in upcoming years.

Proprietary Fund Highlights

The School Nutrition Fund and Preschool Daycare net assets increased slightly from \$ 222,604 at June 30, 2006 to \$ 268,201 at June 30, 2007.

Budgetary Highlights

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following the required public notice and hearing for all funds, except its private-purpose trust and agency funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on a cash basis. A schedule showing the original and final budget amounts compared to the District's actual financial activity is included in the required supplementary information section of this report. Since the District does not adopt a budget for individual funds, budgets for individual major funds are not presented on the budgetary comparison pages.

Legal Budgetary Highlights

The District's total actual revenues were approximately \$ 872,618 greater than the total budgeted revenues, a variance of 4.86 percent. The most significant change resulted in the District receiving more receipts from local sources than originally budgeted.

Total expenditures were less than budgeted due primarily to the District's budget for the General Fund. It is the District's practice to budget expenditures at an amount that exceeds projected expenditures for the coming fiscal year but is less than the maximum allowed by law. The District then manages or controls General Fund spending through a line-item budget at the building level. As a result the District's certified budget should always exceed the actual expenditures during the fiscal year.

Capital Assets and Debt Administration

Capital Assets

On June 30, 2007, the District had invested \$19.88 million, net of accumulated depreciation of \$ 6.13 million, in a broad range of capital assets, including land, buildings, athletic facilities, transportation equipment, computers, and audio-visual equipment. (See Figure A-4) More detailed information about capital assets is available in the financial statements. Depreciation expense for the year was \$ 275,828.

Governmental Funds account for \$ 19.81 million with the remainder of \$.7 million in the School Nutrition Fund, net of accumulated depreciation amounts of \$ 6.03 million and \$.1 million, respectively.

Factors Bearing on the District's Future

At the time these financial statements were prepared and audited, the District was aware of several existing circumstances that could significantly affect its financial health in the future:

- ◆ State payments remain a concern. As long as the state financial picture remains uncertain, future state cuts cannot be ruled out.
- ◆ The district voters authorized a one-cent school infrastructure local option tax in February 2004. Tax collection began in July 2004. The receipts from the one-cent school infrastructure local option tax will be used to repay the general obligation bonds and interest.
- ◆ The district voters authorized the issuance of 15.1 million dollars in general obligation bonds to pay for the construction of a new high school building, and the remodeling of the Tilford and Shellsburg buildings in October 2004. Construction began in the 2004-05 year and will be completed in the 2007-08 year.
- ◆ The District will negotiate a new labor contract in 2007 with its employees. Settlements in excess of "new money" or allowable growth in state funding will have an adverse effect on the District's General Fund budget and reserve fund balance.

Contacting the District's Financial Management

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND
BALANCES – GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
Year Ended June 30, 2007

Net change in fund balances - total governmental funds \$ (8,004,465)

Amounts reported for governmental activities in the Statement of Activities
are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, those costs are reported in the Statement of Net Assets and are allocated over their estimated useful lives as depreciation expense in the Statement of Activities. The amounts of capital outlays and depreciation expense in the year are as follows:

Expenditures for capital assets	\$ 9,795,163	
Depreciation expense	<u>(269,859)</u>	9,525,304

Income surtax revenue not received until several months after the District's fiscal year ends is not considered available revenue in the governmental funds and is deferred. It is, however, recorded as revenue in the Statement of Activities. 82,957

Repayment of long-term liabilities is an expenditure in the governmental funds, but it reduces long-term liabilities in the Statement of Net Assets. 700,000

Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when due. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. 3,579

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. (46,773)

Change in net assets of governmental activities \$ 2,260,602

VINTON-SHELLSBURG COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

June 30, 2007

Note 1. Summary of Significant Accounting Policies

Vinton-Shellsburg Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades kindergarten through twelve and special education pre-kindergarten. Additionally, the District either operates or sponsors various adult education programs. These courses include remedial education as well as vocational and recreational courses. The geographic area served includes the Cities of Vinton and Shellsburg, Iowa, and agricultural territory in Benton, Blackhawk and Buchanan Counties. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Vinton-Shellsburg Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on, the District. Vinton-Shellsburg Community School District has no component units which meet the Governmental Accounting Standards Board criteria.

Jointly Governed Organizations – The District participates in a jointly governed organization that provides services to the District but does not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the Benton County Assessor's Conference Board.

B. Basis of Presentation

District-wide Financial Statements – The Statement of Net Assets and the Statement of Activities report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Assets presents the District's nonfiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt attributable to the acquisition, construction, or improvement of those assets.

Restricted net assets result when constraints placed on net asset use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

VINTON-SHELLSBURG COMMUNITY SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

June 30, 2007

Note 1. Summary of Significant Accounting Policies (continued)

B. Basis of Presentation (continued)

Unrestricted net assets consist of net assets that do not meet the definition of the two preceding categories. Unrestricted net assets often have constraints on resources imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements – Separate financial statements are provided for governmental, proprietary, and fiduciary funds, even though the latter are excluded from the District-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as other nonmajor governmental funds.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other revenues that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, including instructional, support and other costs.

The Special Revenue Fund, Physical Plant and Equipment Levy is used to account for maintenance, equipment, and vehicle purchases made primarily through property tax funding.

The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities.

The District reports the following major proprietary fund:

The Enterprise, School Nutrition Fund is used to account for the food service operations of the District.

The District also reports fiduciary funds which focus on net assets and changes in net assets. The District's fiduciary funds include the following:

The Private Purpose Trust Fund is used to account for assets held by the District under trust agreements with restrictions of income earned to be used to benefit individuals through scholarship awards.

Note 1. Summary of Significant Accounting Policies (continued)

C. Measurement Focus and Basis of Accounting

The District-wide financial statements and the proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

All proprietary funds of the District apply all applicable GASB pronouncements as well as the following pronouncements issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's enterprise fund is charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

Note 1. Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities and Fund Equity

The following accounting policies are followed in preparing the financial statements:

Cash, Pooled Investments and Cash Equivalents – The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for the investment in the Iowa Schools Joint Investment Trust, which is valued at amortized cost, and non-negotiable certificates of deposit, which are stated at cost.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash, and, at the day of purchase, have a maturity date no longer than three months.

Property Tax Receivable – Property tax in Governmental Funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date that the tax asking is certified by the Board of Education. Current year property tax receivable represents unpaid taxes from the current year. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the District-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

The property tax revenue recognized in these funds becomes due and collectible in September and March of the fiscal year with a 1 ½% per month penalty for delinquent payments; is based on January 1, 2005 assessed property valuations; is for the tax accrual period July 1, 2006 through June 30, 2007 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April 2006.

Due From Other Governments – Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

Inventories – Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

Note 1. Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities and Fund Equity (continued)

Capital Assets – Capital assets, which include property, furniture, and equipment, are reported in the applicable governmental or business-type activities columns in the District-wide Statement of Net Assets. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

Asset Class	Amount
Land	\$ 5,000
Buildings	5,000
Improvements other than buildings	5,000
Furniture and equipment:	
School Nutrition Fund Equipment	500
Other furniture and equipment	5,000

Capital assets are depreciated using the straight line method of depreciation over the following estimated useful lives:

Asset Class	Estimated Useful Lives
Buildings	50 years
Improvements other than buildings	20-50 years
Furniture and equipment	5-15 years

Salaries and Benefits Payable – Payroll and related expenses for teachers with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities.

Deferred Revenue – Although certain revenues are measurable, they are not available. Available means collectible within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue in the governmental fund financial statements represents the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred revenue consists of unspent grant proceeds, the succeeding year property tax receivable and other receivables not collected within sixty days after year end.

Deferred revenue in the Statement of Net Assets consists of succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied and unearned meal revenues.

Note 1. Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities and Fund Equity (continued)

Compensated Absences – District employees accumulate a limited amount of earned but unused vacation and personal days during the fiscal year. A liability is recorded when incurred in the District-wide financial statements. A liability for these amounts is reported in governmental fund financial statements only for employees that have resigned or retired. The District has no compensated absences liability at June 30, 2007.

Long-term Liabilities – In the District-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Assets.

Fund Balances – In the governmental fund financial statements, reservations of fund balance are reported for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose.

Invested in capital assets, net of related debt – In the District-wide Statement of Net Assets, the net asset balance invested in capital assets, net of related debt is equal to the capital assets balances, including restricted capital assets, less accumulated depreciation and the outstanding balances of any bonds, notes, or other debt that are attributable to the acquisition, construction, or improvement of those assets.

Restricted Net Assets – In the District-wide Statement of Net Assets, net assets are reported as restricted when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

E. Budgets and Budgetary Control

The budgetary comparison and related disclosures are reported as Required Supplementary Information. During the year ended June 30, 2007, expenditures did not exceed the amounts budgeted in any of the four functional areas.

Note 2. Cash and Pooled Investments

The District's deposits in banks at June 30, 2007 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

At June 30, 2007, the District had investments in the Iowa Schools Joint Investment Trust as follows:

	<u>Amortized Cost</u>
Diversified Portfolio	\$ <u><u>5,300,000</u></u>

The investments are valued at an amortized cost pursuant to Rule 2a-7 under the Investment Company Act of 1940.

Credit Risk – The investment in the Iowa Schools Joint Investment Trust was rated Aaa by Moody's Investors Service.

Note 3. Interfund Transfers

The detail of interfund transfers for the year ended June 30, 2007 is as follows:

Note 4. Iowa Schools Cash Anticipation Program (ISCAP)

The District participates in the Iowa Schools Cash Anticipation Program (ISCAP). ISCAP is a program of the Iowa Association of School Boards and is designed to provide funds to participating entities during periods of cash deficits. ISCAP is funded by a semiannual issuance of anticipatory warrants, which mature as noted below. The warrant sizing of each school corporation is based on a projection of cash flow needs during the semiannual period. ISCAP accounts are maintained for each participating entity and monthly statements are provided regarding their cash balance, interest earnings, and amounts available for withdrawal for each outstanding series of warrants. These accounts are reflected as restricted assets on the balance sheet. Bankers Trust Co. N.A. is the trustee for the program. A summary of the District's participation in ISCAP as of June 30, 2007 is as follows:

Series	Warrant Date	Final Warrant Maturity	Investments	Accrued Interest Receivable	Warrants Payable	Accrued Interest Payable	Unamortized Premium
2006-07B	1/26/2007	1/25/2008	\$ 887,731	\$ 19,563	\$ 890,000	\$ 16,062	\$ 13,838

The District pledges its state foundation aid payments and General Fund receipts as security for warrants issued. Repayments must be made when General Fund receipts are received. If a balance is outstanding on the last date the funds are available to be drawn, then the District must repay the outstanding withdrawal from its General Fund receipts. In addition, the District must make minimum warrant repayments on the 25th of each month immediately following the final date that the warrant proceeds may be used in an amount equal to 25% of the warrant amount. ISCAP advance activity in the General Fund for the year ended June 30, 2007 is as follows:

Early Retirement

The District offers a voluntary early retirement plan to its certified employees. Eligible employees must be at least age fifty-five and employees must have completed ten years of continuous service to the District. Employees must complete an application which is required to be approved by the Board of Education.

The early retirement incentive for each eligible employee is equal to 40% of the employee's base salary calculated by using the current year regular salary schedule, less any other additional pay. The employee may also continue participation in the District's group health insurance, at the employee's own cost.

At June 30, 2007, the District has obligations to nine participants with a total liability of \$149,611. Actual early retirement expenditures for the year ended June 30, 2007 totaled \$102,838. Early retirement is recorded as a long-term liability of the Governmental Activities in the District-wide financial statements.

Note 7. Pension and Retirement Benefits

The District contributes to the Iowa Public Employees Retirement System (IPERS), which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by State statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa 50306-9117.

Plan members are required to contribute 3.70% of their annual covered salary and the District is required to contribute 5.75% of annual covered payroll for the years ended June 30, 2007, 2006, and 2005.

Contribution requirements are established by State statute. The District's contributions to IPERS for the years ended June 30, 2007, 2006, and 2005 were \$591,112, \$570,645, and \$558,885, respectively, equal to the required contributions for each year.

Note 8. Risk Management

Vinton-Shellsburg Community School District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Note 9. Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the area education agency. The District's actual amount for this purpose totaled \$601,807 for the year ended June 30, 2007 and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

Note 10. Construction Commitments

The District entered into various contracts totaling \$2,245,029 for a new high school. In addition, the District had carryover contract balances of \$9,257,101 for various other projects. As of June 30, 2007, costs of \$9,246,380 had been incurred against the contracts. The balance of \$2,255,750 remaining at June 30, 2007 will be paid as work on the project progresses.

Note 11. Contingent Liability

The District is involved in an ongoing lawsuit alleging improper contact between a District employee and a former student. The litigation is in the discovery process. The outcome of this lawsuit cannot be predicted at this time and the District's insurance carrier is affording coverage.

Note 12. Financial Condition

The District had an unrestricted net asset deficit of \$81,017 and an unreserved, undesignated major fund, General Fund deficit balance of \$92,409 at June 30, 2007.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION – BUDGETARY REPORTING

June 30, 2007

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except internal service, private-purpose trust and agency funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the accrual basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund or fund type. These four functions are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated function level, not by fund. The Code of Iowa also provides that District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. During the year, the District adopted one budget amendment increasing budgeted expenditures by \$698,037.

During the year ended June 30, 2007, expenditures did not exceed the amounts budgeted in any of the four functional areas.

Basis of Presentation –

The Schedule of Expenditures of Federal Awards includes the federal grant activity of Vinton-Shellsburg Community School District and is presented on the accrual or modified accrual basis of accounting. The information on this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

See accompanying independent auditor's report.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

To the Board of Education of
Vinton-Shellsburg Community School District:

We have audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Vinton-Shellsburg Community School District as of and for the year ended June 30, 2007, which collectively comprise the District's basic financial statements listed in the table of contents, and have issued our report thereon dated September 19, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Vinton-Shellsburg Community School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Vinton-Shellsburg Community School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Vinton-Shellsburg Community School District's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in the internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control over financial reporting that we consider to be significant deficiencies and other deficiencies we consider to be material weaknesses.

A control deficiency exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects Vinton-Shellsburg Community School District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with accounting principles generally accepted in the United States of America such that there is more than a remote likelihood a misstatement of Vinton-Shellsburg Community School District's financial statements that is more than inconsequential will not be prevented or detected by the District's internal control. We consider the deficiencies in internal control described in Part II of the accompanying Schedule of Findings and Questioned Costs to be significant deficiencies in internal control over financial reporting.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood a material misstatement of the financial statements will not be prevented or detected by Vinton-Shellsburg Community School District's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. We noted no material weaknesses during the course of our audit.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Vinton-Shellsburg Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards. However, we noted certain immaterial instances of noncompliance or other matters that are described in Part IV of the accompanying Schedule of Findings and Questioned Costs.

Comments involving statutory and other legal matters about Vinton-Shellsburg Community School District's operations for the year ended June 30, 2007 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Vinton-Shellsburg Community School District's responses to findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. While we have expressed our conclusions on the District's responses, we did not audit Vinton-Shellsburg Community School District's responses and, accordingly, we express no opinion on them.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of Vinton-Shellsburg Community School District and other parties to whom Vinton-Shellsburg Community School District may report, including federal awarding agencies and pass-through entities. This report is not intended to be and should not be used by anyone other than these specified parties.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Vinton-Shellsburg Community School District during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE
TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE
WITH OMB CIRCULAR A-133

To the Board of Education of
Vinton-Shellsburg Community School District:

Compliance

We have audited the compliance of Vinton-Shellsburg Community School District with the types of compliance requirements described in U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2007. Vinton-Shellsburg Community School District's major federal programs are identified in Part I of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grant agreements applicable to each of its major federal programs is the responsibility of Vinton-Shellsburg Community School District's management. Our responsibility is to express an opinion on Vinton-Shellsburg Community School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether non-compliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Vinton-Shellsburg Community School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Vinton-Shellsburg Community School District's compliance with those requirements.

In our opinion, Vinton-Shellsburg Community School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2007.

Internal Control Over Compliance

The management of Vinton-Shellsburg Community School District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grant agreements applicable to federal programs. In planning and performing our audit, we considered Vinton-Shellsburg Community School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in the District's internal control that might be significant deficiencies or material weaknesses as defined below.

A control deficiency in a District's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the District's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. We noted no material weaknesses during the course of our audit.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of Vinton-Shellsburg Community School District and other parties to whom Vinton-Shellsburg Community School District may report, including federal awarding agencies and pass-through entities. This report is not intended to be and should not be used by anyone other than these specified parties.

Part II: Findings Related to the Basic Financial Statements:

Instances of Non-Compliance:

No matters were reported.

Significant Deficiencies:

- II-A-07 Financial Condition – The District’s governmental activities had a deficit unrestricted net assets balance of \$81,017, and the major fund, General fund had an unreserved, undesignated balance of \$92,409.

Recommendation – The District should analyze the overall governmental and fund activities and search for ways to eliminate these deficits.

Response – We are working on this problem and have reduced the deficits significantly from the prior year. We will continue in our efforts.

Conclusion – Response accepted.

- II-B-07 Financial Reporting – During the audit, we identified adjustments to Enterprise Fund, School Nutrition capital assets additions and other adjustments not recorded in the District’s financial statements. Adjustments were subsequently made by the District to properly include these amounts in the financial statements.

Recommendation – The District should implement procedures to ensure all capital assets additions and other necessary adjustments are identified and included in the District’s financial statements.

Response – We will double check these in the future to avoid missing any capital asset transactions and other adjustments.

Conclusion – Response accepted.

- II-C-07 Disbursement Support/Coding – We noted two disbursements out of forty tested that had no supporting invoice or supporting receipts. In addition, we noted two items paid from the Private Purpose Trust Fund which would more appropriately have been paid from the General Fund due to the educational purpose of the disbursements, and one item paid from the Special Revenue, Student Activity Fund which should have been paid through the Private Purpose Trust Fund due to the nature of the disbursement. We also noticed some object coding errors.

Recommendation – The District should take corrective action to insure that all disbursements made are fully and adequately supported with invoices, supporting receipts or other applicable documentation. In addition, the District should ensure proper coding of fund and object for all disbursements.

Response – We will address these problems and will require full supporting documentation for all future disbursements.

Conclusion – Response accepted.

Part IV: Other Findings Related to Statutory Reporting:

- IV-A-07 Certified Budget – Expenditures for the year ended June 30, 2007, did not exceed the amount budgeted in any of the four functional areas.
- IV-B-07 Questionable Expenditures – No expenditures were noted that we believe may not meet the requirements of public purpose as defined in an Attorney General’s opinion dated April 25, 1979.
- IV-C-07 Travel Expense – No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.
- IV-D-07 Business Transactions – No business transactions between the District and District officials or employees were noted.
- IV-E-07 Bond Coverage – Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to insure that the coverage is adequate for current operations.
- IV-F-07 Board Minutes – No transactions requiring Board approval which had not been approved by the Board were noted.
- IV-G-07 Certified Enrollment – No variances in the basic enrollment data certified to the Department of Education were noted.
- IV-H-07 Deposits and Investments – No instances of non-compliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District’s investment policy were noted.
- IV-I-07 Certified Annual Report – The Certified Annual Report was certified to the Iowa Department of Education timely and we noted no significant deficiencies in the amounts reported.
